SUMMARY

Full Stack Software Developer with 3+ years of experience building secure SaaS and production-ready applications using TypeScript, React, Next.js, Node.js, NestJS, PostgreSQL, MongoDB, Docker, and CI/CD. Strong in REST API design, RBAC authorization, Swagger/OpenAPI, cloud integrations, testing, and performance optimization.

SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL

Frontend: React, Next.js, Angular, Redux Toolkit, RTK Query, Tailwind CSS, Material UI

Backend: Node.js, Express.js, NestJS, Spring Boot, .NET, REST APIs, GraphQL, Swagger/OpenAPI

Databases: PostgreSQL, MySQL, MongoDB, Redis, TypeORM

Cloud/DevOps: Docker, CI/CD, GitHub Actions, Jenkins, Azure DevOps, AWS S3, Firebase, Vercel, Render

Security & Testing: RBAC, JWT, API Validation, Jest, Supertest, Code Reviews, Agile/Scrum

WORK EXPERIENCE

Full Stack Developer

Jan 2025 - Present

| ThreatLocker, Canada

- Enhanced production REST APIs with standardized validation, error handling, and Swagger/OpenAPI documentation.
- Integrated Stripe, Firebase, and AWS S3 for secure payments, authentication, and file storage.
- Built and maintained CI/CD pipelines using Docker, Jenkins, GitHub Actions, AWS, and Azure DevOps.
- Improved code quality through debugging, code reviews, and mentoring interns on clean code and API design.
- Delivered secure SaaS features in Agile/Scrum sprints within a cybersecurity engineering environment.
- Added Jest and Supertest coverage, improving stability and reducing production defects.

Full Stack Developer & Team Lead

Apr 2024 - Dec 2024

| Purezza Technologies, India

- Led cart, checkout, and order-tracking systems supporting 200+ daily users, reducing order-status queries by 35%.
- Improved checkout UX, increasing completed transactions by 50+ orders per month.
- Optimized frontend, API, and database performance, improving dashboard speed by 30-40%.
- Implemented JWT authentication and RBAC authorization to secure role-based application access.
- Led sprint planning, code reviews, and mentoring for 6+ developers and 5 interns, improving delivery quality.

Full Stack Developer

Aug 2022 - Mar 2024

| TechAnek Technologies, India

- Built 100+ REST APIs using Node.js, Express.js, NestJS, and MongoDB for enterprise applications.
- Optimized SQL queries and TypeORM migrations across PostgreSQL and MySQL.
- Developed 30+ reusable React.js and Next.js components across 5+ enterprise application views.
- Improved frontend state management using Redux Toolkit and RTK Query, reducing redundant API calls.
- Implemented Jest and Supertest automation to improve API reliability and reduce regression risk.

PROJECTS

| Multi-Tenant RBAC Task Management Board | [Website](#) | [Source Code](#)

Angular, NestJS, TypeORM, JWT, REST APIs

- Built a multi-tenant SaaS task platform with 5-level RBAC, JWT authentication, audit logging, and 20+ secure REST APIs to manage organization-based workflows across owners, admins, managers, members, and viewers.

| Real-Time Support and Incident Response Platform | [Source Code](#)

NestJS, TypeScript, PostgreSQL, Redis, WebSockets

- Building a production-style support and incident platform with ticket lifecycle management, SLA/escalation workflows, audit events, Redis-backed background jobs, and WebSocket real-time updates across 8+ core support workflows.

| RelayHaven Social Platform | [Source Code](#)

TypeScript, React, gRPC, Drizzle ORM, PostgreSQL, Authentication

- Built a full-stack TypeScript social platform with a user app, admin console, gRPC API layer, authentication, role-based moderation, notifications, and audit logging using a maintainable monorepo architecture.

EDUCATION

Master of Computer Science, Algoma University - Canada | GPA: 3.9/4.0

Jan 2025 - Dec 2025

Bachelor of Computer Science, Gujarat Technological University | GPA: 3.6/4.0

Oct 2020 - Jul 2024
